The Yazaki Kizuna Foundation Managing Director and Managing Executive Officer - Junichi Kitami presented a substantial amount of scholarship awards to successful recipients yesterday as a special measure for 2022 given the financial hardships that NUS students have encountered during the pandemic.

He also added that the scholarship scheme reflects their desire to support the students and amongst the awardees were 30 students who would be doing foundation and undergraduate studies, while three will be doing their postgraduate studies and some PhD scholars. ❤️

We appreciate their engagement and continuous support for the welfare of our NUS Students. 🙌
